Projekti "Long distance cross- border hiking trail "The Forest Trail"" (01.04.2019-30.06.2021)
kaasrahastavad Euroopa Liit ja Euroopa Regionaalarengu Fondi Kesk-Läänemere programm 2014-2020.

Riiast Tallinnani kulgev kaugmatkarada läbib mõlema riigi metsasemaid alasid. Matkarada jaguneb 50 ühepäevaseks lõiguks, iga lõik on ~20 km pikk. Rajalõigud on erineva raskusastmega, seega saab igaüks valida endale sobivaima. Metsa matkarada on kavandatud Euroopa rahvusvahelise kaugmatkaraja E11 osana.
